DETAILED ACTION

1. The amendment filed 5/1/2006 has been placed of record in the file.

- 2. No claims have been amended.
- 3. Claims 1-20 are now pending.
- 4. The applicant's arguments with respect to claims 1-20 have been fully considered but they are not persuasive. A detailed discussion is set forth below.

Continued Examination Under 37 CFR 1.114

5. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous office action has been withdrawn pursuant to 37 CFR 1.114. The applicant's submission filed on 5/1/2006 has been entered.

Information Disclosure Statement

6. The IDS filed 5/1/2006 has been considered.

Response to Arguments

7. The declaration filed 8/9/2005 under 37 CFR 1.131 remains ineffective to overcome the Lang et al. (U.S. Patent Number 6,295,492) reference. Thus, claims 1-20 remain rejected as presented in the previous action dated 2/9/2005.

- 8. In response to the applicant's arguments that the declaration is effective, it is noted that no new declaration has yet been submitted curing the deficiencies set forth in the previous action dated 10/31/2005.
- 9. Concerning conception, the applicant should more clearly point to and explain the features in each of the submitted documents that support the claims. Concerning diligence, the applicant should include in the declaration a discussion of those other relevant patent applications mentioned in the remarks. The applicant should also consider submitting further documents (such as pieces of code with explanations of their function) which show different developmental stages of the invention. Any documentary evidence submitted to establish diligence must include the actual dates of the acts relied on. These suggestions were discussed in detail with the applicant in a personal interview on 4/27/2006. If the applicant is still unsure of what clarifications and further evidence to set forth in the declaration, he is invited to telephone the examiner for further discussion on making the declaration effective.
- 10. The applicant may also consider amending the claims to overcome the prior art of record.
